

FEATURES AND PRODUCT INFORMATION

- Steel frame construction
- Fluid (water) reservoir (plastic/aluminium)
- Rugged, reliable piston pump
- 3/4 HP motor
- Pressure range: 7-14 kg/cm² (100-200 psi)
- Tank volume: 100 Liters (26.5 US Gallons)
- Capacity: 11.4 Liters/minute (3 US Gallons/minute)
- Pressurize an overall platen area up to 4000 sq. in (2.5 sq. m.)
- Voltage, phase and cycle options to work with your vulcanizer
- Equipped with fluid level gauge, pressure gauge, pressure control valve, pressure safety valve
- Weight: 125 Lbs. (57 kg) – when empty
- Solid tires for easy transportation
- Can be connected to the control box to provide power to the pump
